

St., Oconto, Wisconsin 54153. States John born in Providence, Rhode Island.

28. There is no record to be found as to where or when John was born but I believe it to be Rhode Island in 1852. Some sources say Chilton, Wisconsin, but I do not believe this to be correct because the earliest census record for John is 1860 in Chilton, Wisconsin, he is living with his grandparents the Connelys and his age is given as 7, (that makes his birth year 1852 as he will be turning 8 in November of that year), it also states he was born in Rhode Island.

31. No record of their marriage can be found in Catholic Church records or in Oconto County register of deeds records, or pre-1907 indexes. They most likely would have been married about 1874-75 as Elizabeth was born in Nov. 1875. It is possible they married in another county.
